

OUR EXPERIENCE IN NORWAY

Students :

Diana Popenta
Beatrice Katona

About us

Beatrice Katona

❖ Economic Engineering 4th year

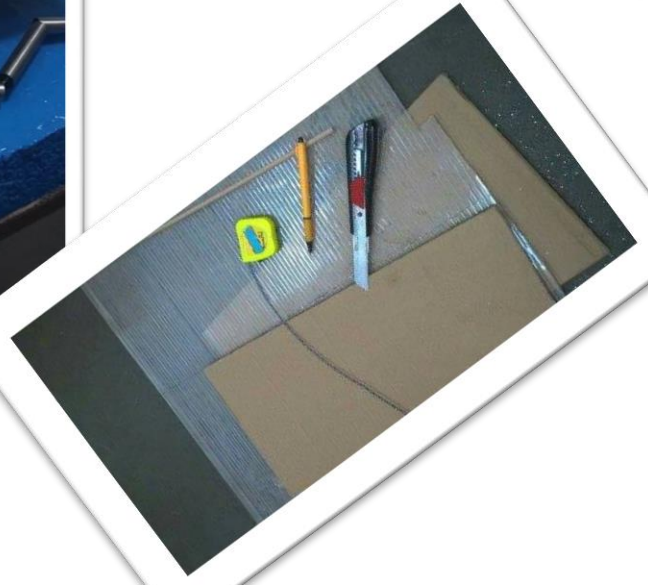

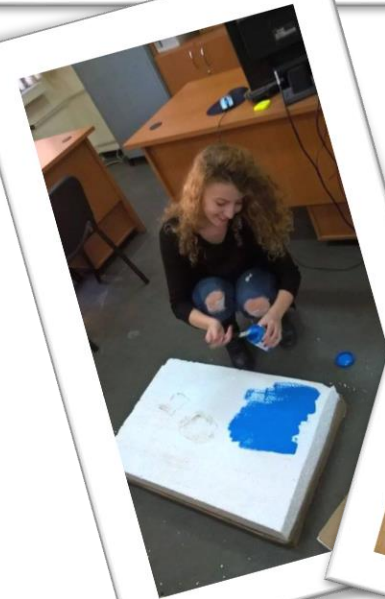

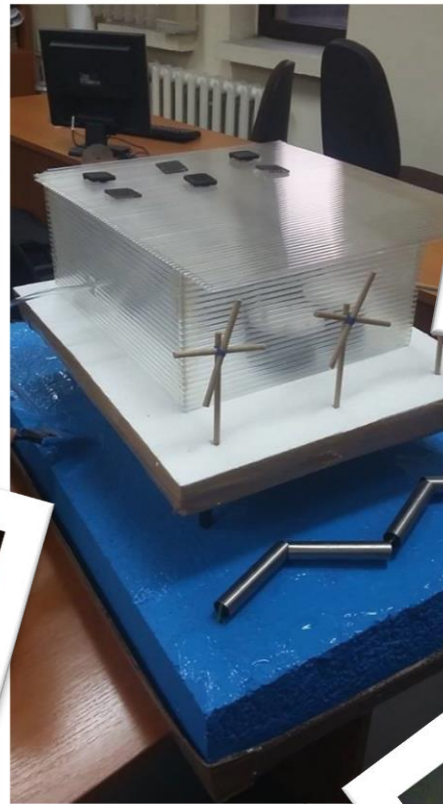

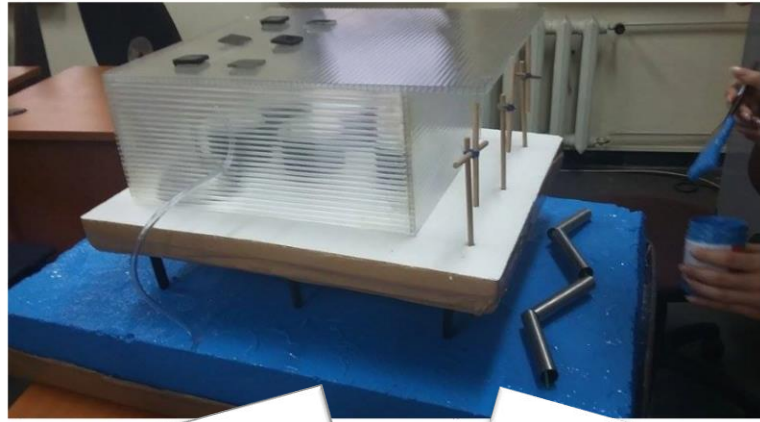

Andreea Popenta

❖ Economic Engineering Master

Floating aquaponic farm

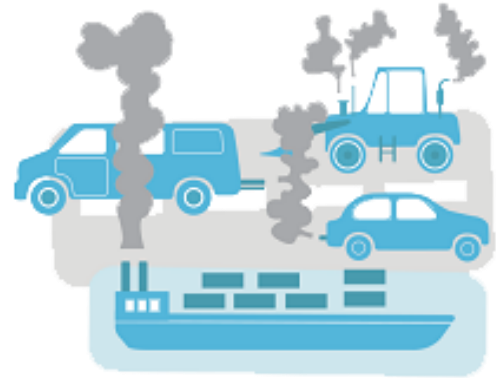

Motivation of research

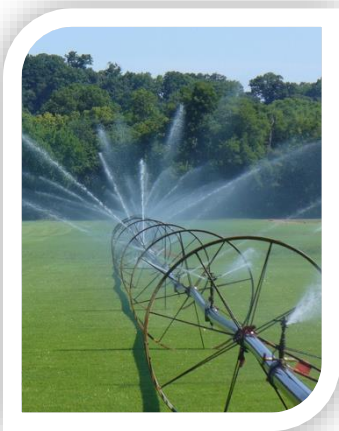

- ✓ Energy, Industry, Agriculture and fishery

- ✓ Air pollution

- ✓ Excessive use of water

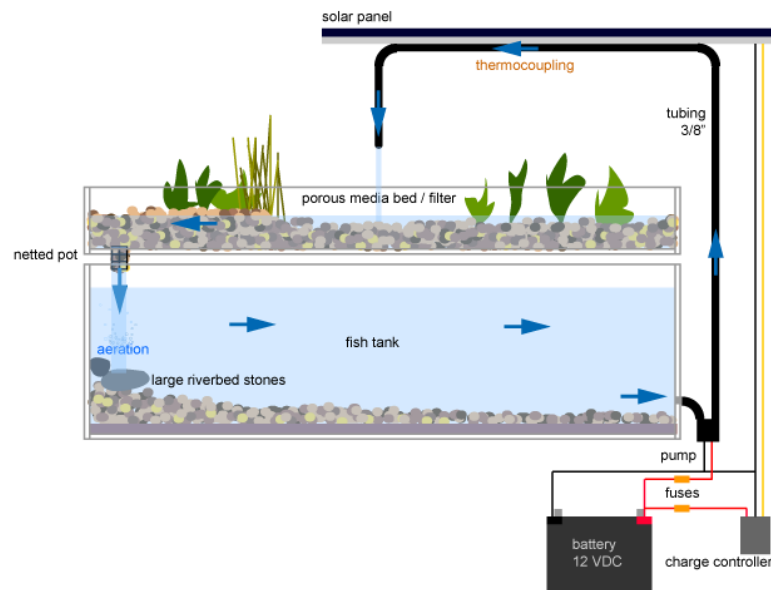

- ✓ Deforestation

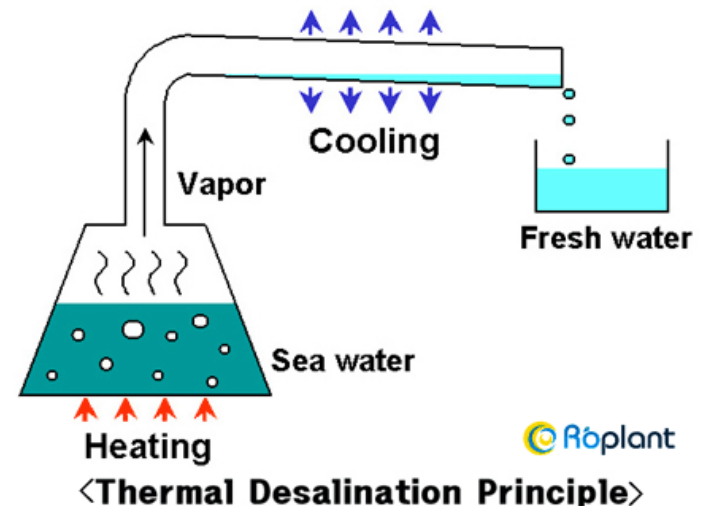

Possibilities of implementation/achievement

- integration of aquaculture and hydroponics

- Desalination

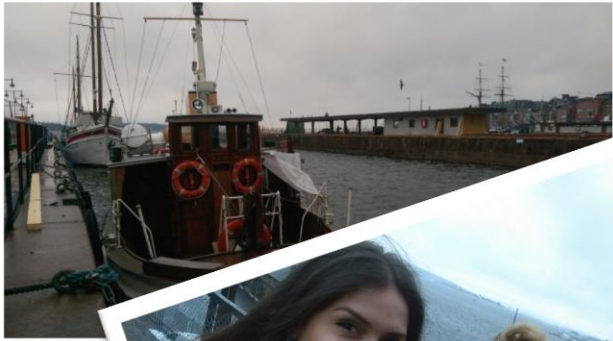

Energy consumption

- ❑ Rain water harvesting
- ❑ The electricity needed for this process is entirely green

First day in Oslo – Love at first sight

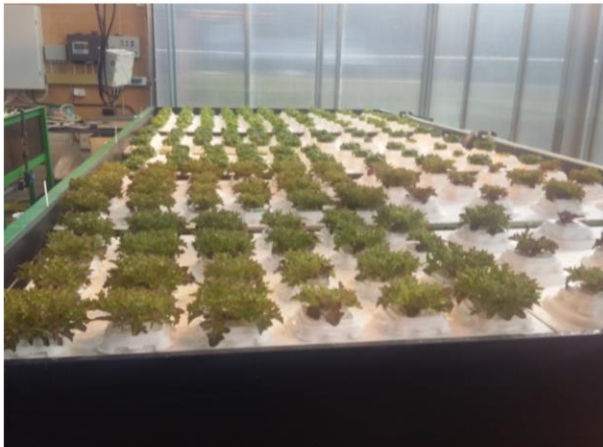

KS Meeting

First day in Arendal

Aquaponic farm in Landvik

Voluntary work

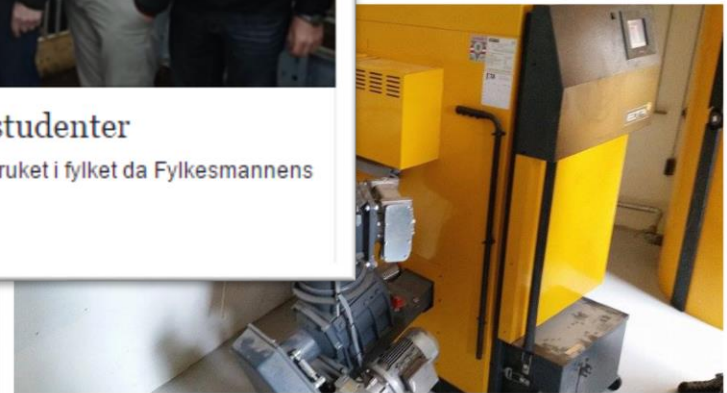

Agriculture School in Amli and big scale biofuelproduction

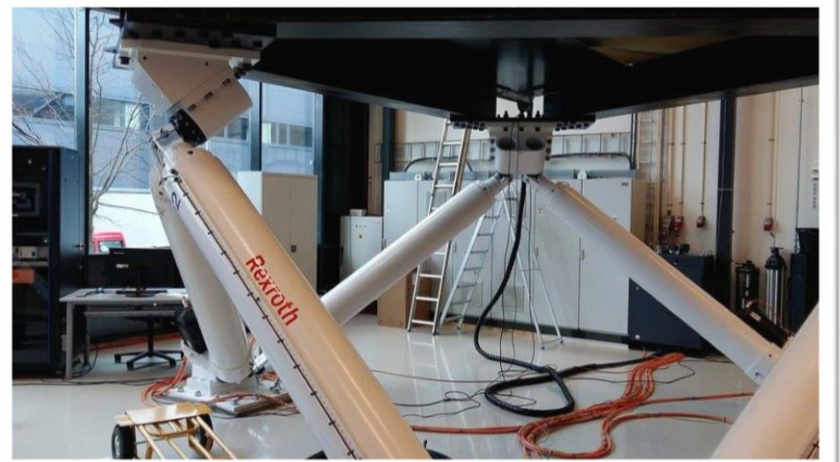

Rundtur i Aust-Agder for rumenske studenter

Fire rumenske studenter fikk et bredt inntrykk av landbruket i fylket da Fylkesmannens landbruksavdeling tok dem med på rundtur.

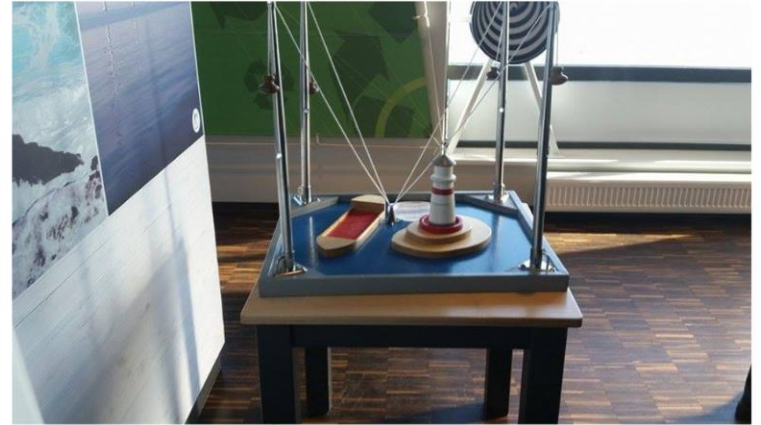

FYLKESMANNEN.NO

University in Grimstad and hydro electric power station
